Sergio Gomez Graduates!

We are proud to announce that we now have a doctor in our midst! Sergio Gomez, director and founder of Baja Vision Ministries-City of Angels recently received his honorary Doctorate of Divinity from Northwest Christian College in Eugene, Oregon. Sergio was awarded his doctorate

degree on the basis of his passion and consistent service to the Lord and the people of Tijuana. He was further honored to present the commencement address to graduates, faculty and guests. We are so proud of Sergio for the honor that has been bestowed upon him. Please pray that God will continue to bless and prosper both Sergio and the

ministry here at Baja Vision Ministries-City of Angels.

Pray for

City of Angels!

- ✓ Pray for Miguel as he continues to recover from eye surgery.
- ✓ Pray for continued and increased financial support for Baja Vision Ministries-City of Angels. More children are a blessing, but they require more staff, food, clothing, etc.

COA Kids go back to school

The summer is over and the children at City of Angels are heading back to school. Since last school year two new families have joined us at City of Angels, bringing our grand total to 39 children living at the home. Twenty five of those 39 children are old enough to attend school and are excited to start

another year in their quest for knowledge. With back-to-school in full swing, we at City of Angels are so thankful to all our supporters who helped cover the expenses of sending our kids back to school. Many of you donated a one-time gift of \$100 to pay for tuition and school supplies for one of our students. While that

did not include the cost of uniforms, a generous business woman who attends church with the COA children has agreed to donate all of the uniforms that we need for this year. Thank you for the part you played in making it possible for the next generation of children in Tijuana to receive an education!

Successful Operation

Many of you have met Miguel, son of Alejandro and Leticia, onsite directors for City of Angels. For years now Miguel has had trouble with his eyes, including severe cornea problems. In fact, he and his family originally moved from Mexico City to the Baja California area because the smog in Mexico City was too hard on Miguel's eyes.

Recently, through the generosity of several friends of the ministry, Miguel received a cornea transplant, making this his second transplant in a year and a half. After his first surgery in April 2004 his eye healed nicely and his vision was greatly improved. Right now his second eye is healing well, but the next two months will be critical in the recovery process. As long as his eye continues to heal and does not become infected, Miguel should have good eyesight for the rest of his life.

Please make all checks payable to **Baja Vision Ministries** and send to:
